

BARRETT SPECIALTIES

Amatite Roofing

It Needs No Painting

Amatite is a ready roofing sold in convenient rolls ready to be unrolled on the roof and nailed down. No skilled labor is needed to apply it. Nails and cement are supplied free.

Amatite should be given the preference over other roofings, because,

First—it is the best looking ready roofing made.
Second—it requires no painting; hence costs nothing to maintain. Other roofings require painting every 2 years.
Third—its great weight and thickness make it very durable.

The no-paint feature is the most important. We obviate the painting by applying a mineral surface embedded under great pressure into the top layer of the composition, making a sort of flexible concrete. We send samples free. Drop a postal to our nearest office.

Carbonol—Cleans—Heals—Disinfects—Preserves

Carbonol is a powerful cleanser. It dissolves grease, and therefore will clean things which soap and water won't touch. It will remove axle grease, and take stains off woodwork, brighten dingy rugs, clean harness, clear out grease from sink pipes, clean windows, etc.

Carbonol also kills germs and suppresses odors. It will keep flies away from garbage, suppress contagious diseases in the hen house, rid dogs of fleas, clear out musty smells in the cellar, etc.

10c., 25c. and 50c. a bottle. Sample free on request.

Barrett's Creosote Shingle Stains

Not simply a coating (like ordinary paint) but a creosote preparation which penetrates and preserves the wood. Cheaper than paint.

Shingles treated with Barrett's stains have twice the life. Any color you wish.

Creo-Carbolin—Wood Preservative

Everybody knows that it saves money to treat timber with creosote—if it is to be placed in the ground. Creo-Carbolin is a creosote preparation, especially prepared so that it can be used successfully by anybody without experience. It can be applied with brush, or by tank treatment. It costs little, but it doubles the life of wood, making it proof against wet rot, dry rot, insects and fungoid growths.

Creonoid—Lice Destroyer and Cow Spray

Spray Creonoid on cattle. It won't hurt them, but the vapor will penetrate to the skin, killing all insect life. Creonoid will keep flies away from the cows. It will keep lice and nits away from the poultry, make every thing sanitary and increase their output.

Everjet Elastic Paint

This is a black, glossy paint that costs much less than ordinary paint. Everjet is better than many paints that cost twice as much. It will not crack or peel or be affected by the weather. The toughest coating made for roofings, metal work, fences, sheds, posts, etc.

AMUSEMENTS.

"The Wolf" to be Presented at The Colonial Saturday Afternoon and Evening.

When "The Wolf" comes to The Colonial theatre on Saturday afternoon and night, October 15, the audience will be invited to follow the author and the actors up into the Hudson Bay country. The play is in three acts and deals with the deceiving of a girl and subsequent avenging by her brother, according to the rough but thoroughly human ethics of that wild country. The girl has disappeared and the name of her betrayer is unknown, but on his deathbed the father commands the girl's half brother, Jules, to seek out the girl and care for her. Jules finds, in his search, that the girl has met voluntary death in a storm, so he sets out to find the man and locates him in the home of a Scotch fur trader. The plot embraces many other varied incidents, with another more savory love affair, and with the comedy interests well represented, it is said. A beautiful scenic production is carried; not a piece of house scenery used. There will be a special bargain matinee Saturday at 2.30. Prices, 25 and 50 cents.

HEAVY SHORTAGE IN HIS ACCOUNTS

Late Head of Atlas Bank Betrays His Trust

New Bedford, Mass., Oct. 7.—A shortage of between \$130,000 and \$150,000 was announced in the books of the late George W. Weymouth, president and general manager of the Atlas Tack company, controlled by the estate of the late Henry H. Rogers.

Weymouth, who resigned from congress, where he represented the Fourth Massachusetts district from 1897 to 1901, to accept the position, was killed in an automobile accident in Bingham, Me., a month ago.

Announcement of the shortage came as a great surprise. Weymouth had not lived extravagantly, and it is understood that on his death he left a small estate, consisting chiefly of an accident policy.

It is thought that the shortage in Weymouth's accounts was due to attempts to make up losses in the stock market.

MURDERS HIS BRIDE

Providence Man Also Shoots Supposed Rival and Kills Himself

Providence, Oct. 6.—After firing two shots at John H. Schnellbacher, whom he had accused of paying attention to his wife, and badly injuring him, Robert H. Robinson, aged 22, murdered his bride of a few months and then took his own life. Schnellbacher is 22 years of age.

All three of the young people concerned are well and favorably known in the Elmwood section of the city and moved in the best circles. The Robinsons were apparently a most happy couple and their friends had no suspicion of the husband's feeling in the matter.
